A PROFESSIONAL BEGGAR

John Nelson Smith was arrested at James Old's residence on Liliha street this afternoon on a charge of vagrancy.

It appears that Smith has been working the town for small change and, judging from the contents of his pockets, has done well.

On being searched at the police station, \$3.75 in cash, a tooth-brush, button-hook, and a tin check for a trunk were found on him.

He also had a letter which he presents on his rounds. It reads as follows:

"Good People I ask you if you can assist me I am travelling and selling magazines and have not the goods or money kind people if you can help me don't think it to much of unkindness for I be very thankful and remember God love Cheerful Giver."

The man was remanded till tomorrow morning.

PASS ORDINANCES OVER MAYOR'S VETO

Supervisors Hold Rather Purposeless Meeting

For no apparent reason in the world other than to pass two ordinances over the Mayor's veto, the Board of Supervisors met this morning at 10 o'clock.

The reading of the minutes was the first business gotten through with. Nobody seemed to have any interest in the proceedings, and the Clerk finished his reading and looked around, without anyone taking cognizance of the fact that something should be done. Suddenly Ahia looked about, jumped to his feet, and moved that the minutes stand approved as read.

The two following communications from the manager of the Bishop Estate, were, on motion of Supervisor Quinn, referred to the Committee on Roads and Bridges:

"The tenancy heretofore held by the County of Oahu, covering certain Kakaako lots, having expired December 31, 1908, the same are now vacant."

MISS CUMMINGS TO BE MAUI PRINCESS

Committee Still Needs Name of Hawaii's Choice

Miss Hannah Cummings has been selected as Princess to represent the Island of Maui in the Floral Parade on Washington's Birthday. This provides for all of the Islands except Hawaii, provided Miss Cummings accepts.

The young lady of Maui's choice, as announced by a letter received from J. N. S. Williams of Kahului, this morning, is a student in the Primary School in Honolulu. The Maui people had not had time to consult with her, or with the school authorities on the matter, but Mr. Williams stated that it was hoped in Maui that the choice would be satisfactory to all concerned, as it was up there. He further asked that provision for a horse be made here, and that he be advised at once what would be necessary in the way of pay and other trappings, which would either be furnished or not.

HOSMER TELLS OF FORESTRY PROGRESS

Agricultural Board Hears Important Reports By Experts

R. S. Hosmer, Superintendent of Forestry, is making arrangements with the Department of Public Instruction whereby vegetable and flower seeds may be distributed to the different families represented in public schools. Delegate Kalaniana'ole in Washington sent here by the last mail a shipment consisting of 10,000 packages of vegetable seeds and 320 packages of flower seeds.

In his report for the month of January to the Board of Agriculture and Forestry, which met yesterday afternoon, Hosmer reported that on January 11 there broke out a forest fire at Kauhako, Kona, Hawaii. He did not mention how large an area was burned over.

In his letter to the Advisory Board Donald MacIntyre requested that some steps be taken toward effectively checking the damage resulting from forest fires.

SUPERVISOR QUINN SHOWS GOOD WORK ON STREETS OF CITY

Supervisor Quinn, better known as "Jim," chairman of the Committee on Roads, is of the opinion that very effective and a good amount of work is being done on the streets of the city, considering the time the new Board of Supervisors has had to do anything and the amount of money placed at their disposal.

"The first thing we are attending to is repair of the streets," said Mr. Quinn, as he rode out King street toward Moanalua. "And right here the first thing is the many-adjected Gas Company. We waited for the Gas Company to complete its digging in this part of the town, and we thought they had finished. Now the first thing we know they are cutting across King street on Nuuanu."

"The Gas Company is doing its present work under the permits given by the old Board. You can depend on it that when they get any permits under the present Board they will have to put up a cash bond to replace the street in as good condition as they found it."

"The trouble with the gas trench is that they don't tamp it till they get near the top. Look at that ridge. That's the kind of work that will be changed when there is another set of permits given out."

Road Program
"The program the Road Committee has on foot is to put King street in shape from Diamond Head to Moanalua. We have five repair gangs

throughout the city that do nothing but fill up the holes made by the wear. We can save great stretches of road by timely repair, and that is what we are trying to do."

"Along King street here in many places we are patching. We haven't the money to rip up everything and put down a new first-class street, much as we should like to."

As the directing member of the road administration rode along he pointed out the places that had once been a series of huddles and are now smooth road and comfortable driving.

"Of course, it is not perfect, but it is about a hundred per cent. better than it was before," commented Quinn.

"And we have very little money to work with."

Improving Parks
"We are taking hold of the parks, too," said Quinn as he passed the popular Aala Park. "I found they had no brooms and everything was at sixes and sevens among the caretakers of the park. The equipment has been bought and they will not only keep the park clean, but watered and well turfed."

"I got after the fellows supposed to be taking care of this park," said Quinn as he passed Thomas Square.

"Why, that place is all growing up with weeds."

Magoon Has Advised Atcherley To Resist Till The Last Ditch

during the afternoon.

"The status of Dr. Atcherley is at present that of an escaped lunatic," said Attorney General Hemenway this morning. "The appeal to the Supreme Court, which was taken immediately after Judge Robinson rendered his decision, operates as a supersedeas to his order, and the original commitment is therefore to be carried on, pending the appeal. I instructed the police department to get Atcherley and give him back to the insane asylum authorities a couple of days ago. Of course, the custody of the doctor lies with the insane asylum authorities, Dr. Peterson, but he is not expected to, and is, as a matter of fact, not able to gather in escaped lunatics, and the police must therefore guard."

The record in the matter of the Atcherley appeal was this morning filed with the Supreme Court, and the Attorney General has now ten days in which to file his brief. He will, however, file his brief as soon as he is able to do so in order to expedite the hearing.

J. A. Magoon, Dr. Atcherley's counsel, has given out that he would take the full time allowed him by law, fifteen days from the time of the filing of the appellant's brief, in which to file his return brief, but it is expected that when the Doctor is in charge of the asylum he will see reason to change his mind in this regard, and will hasten to have the appeal adjudicated. The Supreme Court, it is understood, is anxious to dispose of the appeal as soon as possible.

Mrs. Mary Atcherley had a fine lunch yesterday when she wrote the Bulletin that the authorities were going to kidnap Dr. Atcherley.

The authorities in charge of the insane asylum have, as a matter of fact, been looking for the Doctor for a couple of days, and will place him in the asylum as soon as they can get hold of him. It is their desire to capture him at some place other than his home, in order that there be as little of a rumour about the matter as possible. The fact that Mrs. Atcherley has bought cartridges with the intention that she intends to protect her husband and herself against the assault of the enemy, has been taken into account, and it is hoped that he may be taken when he is away from her protecting wing.

At 2 o'clock this afternoon Dr. Peterson, the superintendent of the asylum, stated that he did not know if Atcherley had been caught or not. It is expected that he will be captured
